::: ENGLISH :::

Debut album of metal project GHOSTREAPER featuring ten international vocalists, male and female, in an epic Wild West setting.

There's everything from hard rock to modern metal up to classic power metal. "Straight Out Of Hell" combines different genres forming a complete and powerful picture. The album is full of melodic hooklines and riffs, telling the story of a band of outlaws at the time of the Wild West. Great songwriting meets powerful and energetic voices. Written and produced by Mikk Hollenberg, guitarist of dark metal band VOODOOMA.
